## Growing a Nation...

- is a searchable interactive timeline (growinganation.org) highlighting significant historical events that have changed the way Americans live today.
- uses instructional design and innovative technology to bring depth and meaning to historical events.
- merges seamlessly with existing American history textbooks and high school history curricula.
- is a teaching tool that provides meaningful discussion questions fostering group interaction.
- provides educators with student-centered lesson plans for a deeper dive into the timeline.
- presents statistical data allowing students to analyze trends and make predictions.
- provides for an engaging experience throughout an entire course.
- allows users to download images, audio, and video for use in personal projects.

*America's government, geography, and innovation have helped to create agricultural abundance. Because most Americans don't worry about where their next meal is coming from, we are able to pursue a variety of interests, occupations, hopes, and dreams.*
